## FOREWORD

The street indexes have been compiled from data that was available following the 1997 general election, as well as from data Elections Canada obtained directly from Canadian municipalities and Statistics Canada. The street indexes are published by the Chief Electoral Officer in accordance with sections 189, 210 and 254 of the *Canada Elections Act*.

The street indexes are published to enable electors who vote under the Special Voting Rules to determine the electoral district in which they are qualified to vote at an election. They are also an information tool for anyone wishing to determine the electoral district in which certain addresses are located.

A street index is published for major metropolitan areas and large incorporated municipalities located in more than one electoral district. For convenience, the indexes are grouped into books by province or region.

Each index contains an alphabetical and/or numerical listing of streets, avenues, etc., within the municipal limits, together with civic numbers where available, and the electoral district in which they are located. Users are asked to note that only those parts of a particular street, avenue, etc., which are contained within the limits of the municipality which is the subject of the publication are included therein. The word "ALL" means that the entire street, within the municipality, is included in the electoral district indicated.

The electoral districts mentioned in these publications are those established pursuant to the Representation Order of 1996 and have been in effect since April 27, 1997. Names of electoral districts are current to June 29, 2000.

Municipalities which are contained within one electoral district are listed alphabetically with the appropriate electoral district name in the publication entitled *Guide to Federal Electoral Districts*.

## AVANT-PROPOS

Les indicateurs des rues ont été préparés à partir de données disponibles suite à l'élection générale de 1997 en plus de l'information qu'Élections Canada a obtenue directement des municipalités canadiennes et de Statistique Canada. Les indicateurs des rues sont publiés par le directeur général des élections en conformité avec les articles 189, 210 et 254 de la *Loi électorale du Canada*.

Les indicateurs des rues sont publiés afin de permettre aux électeurs qui votent en vertu des Règles électorales spéciales de déterminer dans quelle circonscription ils sont habiles à voter lors d'une élection. Ce sont aussi des outils indispensables pour déterminer à quelle circonscription une adresse donnée appartient.

Généralement, un indicateur des rues est préparé pour les régions métropolitaines et les grandes municipalités qui chevauchent plus d'une circonscription. Afin de faciliter la recherche, les indicateurs sont regroupés par province ou région.

Chaque indicateur des rues renferme une liste par ordre alphabétique et numérique des rues, des avenues, etc., à l'intérieur des limites d'une ville, avec des numéros civiques lorsqu'ils sont disponibles, et la circonscription dans laquelle elles se trouvent. On demande aux utilisateurs de noter que seules les parties d'une rue ou autre voie de circulation qui sont à l'intérieur des limites d'une municipalité répertoriée sont incluses. Le mot « ENTIER » signifie que toute la rue, à l'intérieur de la municipalité, est comprise dans cette circonscription.

Les circonscriptions mentionnées dans ces publications sont celles établies en vertu du Décret de représentation électorale de 1996, qui sont en vigueur depuis le 27 avril 1997. Les noms des circonscriptions sont à jour en date du 29 juin 2000.

Les municipalités se situant entièrement à l'intérieur d'une circonscription sont énumérées par ordre alphabétique, suivies du nom de la circonscription, dans la publication intitulée *Guide des circonscriptions électorales fédérales*.
